Our know-how - your advantage

Dowel hole drilling feed and electric drilling units (DB 3200, DB 3100, DB 1000) - suitable for dowel hole drillings on profile bar

- longevity and compactness through high-grade and low-wear components
- operator-friendly release via foot switch
- adjustable automatic disconnection of electric motor after drilling cycle via time relay
- advance speed and drilling depth individually adjustable

Complementary equipment

- integration of the drilling unit into the production process by applying the UG 5000 base frame
- roller conveyor attachable
- stop conveyor with digital dimension display - available upon request
